

AXALTA Hostel

We offer you the building of the AXALTA student campus, located at Kuznechikhinskaya street, 100, Nizhny Novgorod.

The building underwent a complete renovation in 2019. Heating, water supply, power supply, and fire safety ventilation systems were replaced. A new warm, beautiful and high-tech curtain facade has been installed. The design renovation of residential and public spaces have been done.

To date, we are ready to house 605 students in rooms with 2 and 3 bed accommodation (the room area is 18 sq. m.). For a comfortable staying in the campus there are 205 rooms. In each of them there are beds with orthopedic mattresses, hypoallergenic bed-clothes and high-quality blackout curtains.

Information about the number of shower cabins on the floors

	Groun d floor	1st floor	2st floor	3th floor	4st floor	5st floor
Right wing	8	8	8	8	8	8
Left wing	8	8	8	8	8	8

Information about the number of toilets on the floors

	Groun d floor	1st floor	2st floor	3th floor	4st floor	5st floor
Right wing	5	11	11	11	11	11
Left wing	5	6	6	6	6	6

Each place provides a personal table with a charger for gadgets, a work armchair and a large wardrobe for personal belongings.

Each room has high-speed Internet, a refrigerator, a kettle, table lamps for extra amenities. Bathrooms and showers are located on all floors and are made of modern vandal-proof materials that guarantee durability and ease of use.

In the design and building of kitchen areas, professional cookware and stainless steel modules are used to maintain constant cleanliness and comfort, and induction cookers allow students to minimize cooking time.

Special attention is paid to the safety of students ' accommodation. The building has an access control system of the Spanish company SALTO.

SALTO PACS - systems based on a combination of wireless electronic locks and cylinders with online PACS controllers. Each student receives an access card while check-in. A turnstile is installed at the entrance to the campus, applying the card gets into the living area. A student can only access the floor where they live.

The PACS remotely tracks the location of each student on campus in real time and restricts their access if necessary. The system can be integrated into the security zone of the universities, and the access key is the student's Bank - campus card.

Relax zones are provided in modernly designed public spaces, and vending halls are equipped with:

Foodbox Long is one of the most spacious vending machines for selling a wide range of packaged snack products and beverages. A reliable device of European quality that supports ideal storage conditions for any product in separate temperature zones.

LUCE X2 PRO is an extensive menu consisting of 24 drinks up to 250 ml, elegant design and ease of use.

The campus has a 24-hour laundry service and the ability to use a multi-stage system for cleaning drinking water using reverse osmosis technology.

Within walking distance from the campus are:

-grocery stores (Magnit, Pyaterochka), shopping center, fitness club, Boxing school, market, recreation area Shchelkovsky area, canteens, cafes, restaurants, public transport stops (bus, tram, trolleybus).

The price includes cleaning of residential rooms, regular change of bedding, cleaning of public premises.

The cost of temporary accommodation for one student in a two-or three-bed room (one bed) for one month (monthly fee) is:

-11,500 rubles per month for accommodation from 1 to 30 people;

-11,000 rubles per month for accommodation from 31 to 100 people;

-10,500 rubles per month for accommodation from 101 to 200 people;

-10,000 rubles per month for more than 201 people.

Sincerely, Bystrova E. M. The

manager of the AXALTA campus
