Career opportunities

In the area of pedagogy, graduates of the program work as a secondary school foreign language teacher in the public educational institutions. Two foreign languages (English and Italian) are successfully taught in high secondary schools. Another highly requested job in the field of pedagogy is that of a teacher in private educational institutions including those where English and Italian are taught at the same time. As far as the area of educational and cultural activity is concerned, graduates can find jobs in educational tourism organized by private language schools.

Entrance exams

- Foreign Language
- The Russian Language
- Social Theory
